

When I listen to K-Love on the radio driving to work it keeps me in a good frame of mind. Ever since I found K-Love on the radio one year ago my life has changed. This radio station has blessed many lives and there isn't any other station like that in our area. Please do not take it away. I know that there is less road rage because we can listen to K-Love here in Virginia. My children love this radio station and the many blessings it has made in our life.
